01 About Us

PT Sinar Cendana Abad Jaya (SCAJ) is a construction service company based on EPC (Engineering, Procurement, Construction).

The company was founded by corporate activists who are also energy observers together with business group Kelman Global Group (KGG) which has experience and business reputation in the field of national construction services.

As an independent business unit, PTSinar Cendana Abad Jaya focuses on engineering efforts with experienced engineering professionals from various projects, especially our expertise in Mechanical, Piping, Electrical & Instrument, Civil, and other fields. REN as a company engaged in the service sector is also accustomed to procuring goods / equipment related to various construction fields, especially oil and gas (oil and gas).

We estimate that the world economy and the oil and gas industry will still be challenging. However, we also believe that for the long term, the development of the service industry in the energy sector is a good prospect.

Management seeks to take strategic steps that focus on national infrastructure needs. We believe that REN has all the requirements needed to realize business opportunities supported by operational excellence, reliable human resources and an effective and efficient cost structure.
